Continuation of 3. Applicant's reply has overcome the following rejection(s): the rejection of claims 1-5, 8, 10 and 28-40 under 35 USC 112, scope of enablement and written description, regarding "40% amino acid identity" and 35 USC 112, new matter. The double patenting rejection has also been overcome.

Continuation of 5. does NOT place the application in condition for allowance because: 1-5, 8, 10 and 28-40 remain rejected under 35 USC 112, first paragraph, scope of enablement and written description, regarding "binding analogs" for the reasons already of record on pages 2-3 of the Office Action dated 10/28/03. Applicants have not provided sufficient guidance or working examples of the binding analogs recited in, for example, parts (i)- (iii) of claim 1. The claims also remain rejected under 35 USC 112, first paragraph, since the metes and bounds of "substantially the same stringency" are not known.
